ABOUT ISO PANELS KENYA

ISO PANELS LTD
FOR QUALITY PANELS

BUILT FOR THE ENVIRONMENTS THAT DEMAND PERFORMANCE.

Iso Panels Kenya designs, fabricates and installs complete panel systems for industries where temperature control, hygiene compliance and build quality cannot be compromised.

Every panel supplied is manufactured at the company's Naivasha facility and custom fabricated to exact project dimensions. Since 2002, Iso Panels Kenya has supplied panel systems for cold rooms, cleanrooms, prefab structures and industrial facilities across Kenya and East Africa.

SINCE
2002

MANUFACTURED IN
NAIVASHA, KENYA

DELIVERED ACROSS
KENYA & EAST AFRICA

SANDWICH PANEL SYSTEMS

ISO PANELS LTD
FOR QUALITY PANELS

ENGINEERED PANEL SYSTEMS FOR EVERY STRUCTURE

Iso Panels Kenya manufactures insulated sandwich panels for walls, roofs and specialised enclosures.

Each panel combines a rigid metal facing with a precision-formed core to support thermal efficiency, faster installation and long-term durability across commercial, industrial and agricultural projects.

01 | THERMAL INSULATION

02 | LIGHTWEIGHT HANDLING

03 | STRUCTURAL STRENGTH

04 | CORE OPTIONS

05 | MULTIPLE APPLICATIONS

ISO PANELS LTD
FOR QUALITY PANELS

EPS PANELS

EFFICIENT. LIGHTWEIGHT. COST-EFFECTIVE.

EPS panels use an expanded polystyrene core and offer thermal insulation, lightweight handling and cost-efficiency.

Iso Panels Kenya identifies EPS sandwich panels as its core product, manufactured at its Naivasha facility in custom sizes and thicknesses to suit project requirements.

01 | **THERMAL INSULATION**
Designed to reduce heat transfer through the building envelope.

02 | **LIGHTWEIGHT HANDLING**
Supports efficient handling and installation.

03 | **COST-EFFICIENCY**
A practical insulated panel solution.

04 | **CUSTOM FABRICATION**
Built to project-specific dimensions.

6

EPS PANEL OPTIONS & APPLICATIONS

ISO PANELS LTD
FOR QUALITY PANELS

BUILT TO YOUR PROJECT DIMENSIONS.

Available EPS panel thicknesses include:

50MM

75MM

100MM

150MM

AND BEYOND

Every panel is fabricated to exact project specifications and delivered ready to build.

APPLICATIONS

Cold Rooms

Cleanrooms

Prefab structures

Industrial builds

Walls & roofs

ISO PANELS LTD
FOR QUALITY PANELS

PU PANELS

Enhanced insulation for controlled environments.

PU, or polyurethane, sandwich panels provide thermal insulation and moisture resistance.

They are positioned by Iso Panels Kenya for applications including cold rooms, cleanrooms and controlled-environment facilities.

KEY ADVANTAGES

01 | THERMAL INSULATION

02 | MOISTURE RESISTANCE

03 | CONTROLLED-ENVIRONMENT PERFORMANCE

APPLICATIONS

Cold Rooms

Cleanrooms

Controlled-environment facilities

ISO PANELS LTD
FOR QUALITY PANELS

PIR PANELS

Fire resistance. Structural strength. Long-lasting insulation.

PIR panels are described by Iso Panels Kenya as high-density insulated panels with steel or aluminium facings, designed to provide fire resistance, structural strength and long-lasting insulation.

KEY ADVANTAGES

01 | FIRE RESISTANCE

02 | STRUCTURAL STRENGTH

03 | LONG-LASTING INSULATION

04 | STEEL OR ALUMINIUM FACING OPTIONS

HIGH DENSITY INSULATED PANEL SYSTEM

Every panel is fabricated to exact project specifications and delivered ready to build.

ROCKWOOL PANELS

ISO PANELS LTD
FOR QUALITY PANELS

ROCKWOOL PANELS

Built for thermal, acoustic and fire performance.

Rockwool panels feature a mineral wool core and are described by Iso Panels Kenya as providing fire resistance, acoustic insulation and thermal performance.

KEY ADVANTAGES

01 | FIRE RESISTANCE

02 | ACOUSTIC INSULATION

03 | THERMAL PERFORMANCE

04 | MINERAL WOOL CORE

FIRE RESISTANCE

Every panel is fabricated to exact project specifications and delivered ready to build.

10

APPLICATIONS

ISO PANELS LTD
FOR QUALITY PANELS

ONE PANEL RANGE. MULTIPLE BUILDING REQUIREMENTS.

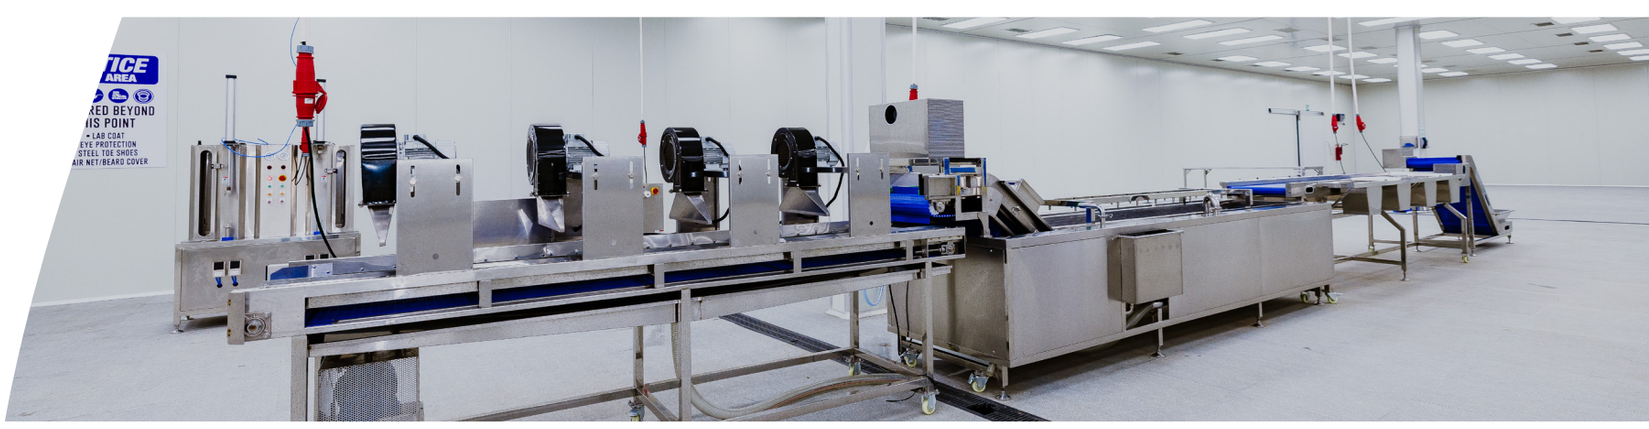

AGRO-PROCESSING & HORTICULTURE

Cold storage, pre-cooling facilities and controlled environment packhouses.

FOOD PROCESSING & MANUFACTURING

Cleanrooms, cold storage and controlled processing zones.

PHARMACEUTICAL & BIOTECH

Controlled environments and cleanroom facilities.

COLD CHAIN LOGISTICS & WAREHOUSING

Cold rooms, freezer rooms and temperature-controlled warehousing.

INDUSTRIAL & COMMERCIAL CONSTRUCTION

Warehouse partitioning and industrial facility panel systems.

PREFAB & MODULAR CONSTRUCTION

Prefab homes, staff quarters, site offices and modular structures.

ISO PANELS LTD
FOR QUALITY PANELS

WHY ISO PANELS KENYA

BUILT HERE. BUILT FOR YOUR PROJECT.

MANUFACTURED IN NAIVASHA

EPS panels are manufactured locally and custom fabricated to project requirements.

CUSTOM DIMENSIONS

Panels are fabricated to exact project specifications rather than forcing standard sizes onto non-standard structures.

20+ YEARS OF EXPERIENCE

Building panel systems across Kenya and East Africa since 2002

SUPPLY OR A COMPLETE SOLUTION

Panels can be supplied to exact dimensions, or delivered as part of a complete design and installation solution.

ONE TEAM

A single team can manage the project from order through delivery and handover.
