ABOUT US

Built For Performance.

Iso Panels Kenya is a leading manufacturer, supplier and installer of premium grade insulated panel and building solutions, designed for thermal efficiency, durability and reliable performance.

Since 2002, we have been serving a wide range of industries with high-quality solutions from our Naivasha manufacturing facility, helping clients build smarter, faster and more efficiently.

WHY CHOOSE US

QUALITY PRODUCTS
Premium grade panels and solutions.

LOCAL MANUFACTURING
Based in Naivasha, Kenya.

EXPERTISE & EXPERIENCE
Over 20 years of industry experience.

RELIABLE SUPPORT
Design, installation and ongoing support.

SUSTAINABLE SOLUTIONS
Energy-efficient and environmentally responsible building solutions.

PRODUCTS & SOLUTIONS

Premium panels. Purpose-built solutions.

We offer a comprehensive range of insulated panels and building solutions, engineered for performance and versatility.

INSULATED WALL PANELS
High-performance panels for durable, energy-efficient walls and partitions.

INSULATED ROOF PANELS
Robust roofing solutions for superior thermal insulation and weather resistance.

COLD ROOM PANELS
Specially designed for temperature-controlled environments.

ACCESSORIES
Complementary products for a complete and seamless installation.

TAILORED SOLUTIONS
We also provide custom solutions to meet specific project requirements.

FROM CONCEPT TO COMPLETION

A COMPLETE TURNKEY APPROACH

At Iso Panels Kenya, every project follows a structured process designed to ensure quality, efficiency and long-term performance.

OUR PROJECT PROCESS

01 CONSULTATION & SITE ASSESSMENT
Our team evaluates your operational requirements, site conditions and performance goals to determine the most suitable solution.

02 DESIGN & ENGINEERING
Layouts, specifications and system requirements are developed to match your facility's operational needs and future growth plans.

03 MANUFACTURING
Insulated panels and components are fabricated at our Naivasha production facility to precise project specifications.

04 INSTALLATION
Experienced installation teams ensure accurate assembly, efficient execution and adherence to project timelines.

05 TESTING & HANDOVER
Systems are inspected and verified to ensure they meet project requirements before final handover.
